

**Lunch/Networking Event for Graduate and Postdoctoral Women
in the College of Science and Engineering**

Special Guest: Ali Naughton

Friday, April 25, 2014; 101 Walter Library; 12:00–1:15 PM

Ali Naughton is the Director of Global Therapy Systems Support for the Cardiac Rhythm Management division of Boston Scientific. She joined Boston Scientific (then Guidant) in 1998, beginning her career there as an implantable defibrillator Technical Consultant and later progressing to management of that team. Ali also managed Boston Scientific's Product Performance Reporting function, where she collaborated with customers, internal stakeholders, advocacy groups and the AdvaMed industry working group to define and implement modern-era industry standards for product performance reporting.

In 2008, Ali was promoted to Director over the Global Therapy Systems Support function. This team is chartered with providing technical and clinical expertise and support to the entire spectrum of Boston Scientific Cardiac Rhythm Management customers and products. Ali oversees teams in St. Paul, Brussels, Sydney, and Tokyo.

Ali holds a Bachelor of Aerospace Engineering & Mechanics degree and a Master of Mechanics degree with focused coursework in Biomedical Engineering, both received from the University of Minnesota. She lives in Minneapolis with her husband, an aerospace engineer turned fiction writer, and their three daughters. Ali volunteers in the community and is on the Board of Directors for a local charity foundation.
